

# How to plant herbs

## You will need:

- Pots
- Soil
- Digging tools
- Seeds or seedlings
- Water
- Sun

## Planting:

1. Fill a pot with soil.
2. Dig up the soil.
3. Put the seeds or seedlings in the soil.
4. Water the seeds or seedlings.
5. Put the pot in a spot with sun.
6. Check the soil is kept moist.
7. Now wait and see the herbs shoot up!
